

REMARKS/ARGUMENTS

Reconsideration of the application is requested.

Claims 1-9 and 12 are now in the application. Claim 1 has been amended. Claims 10-11 have been previously cancelled. Claim 12 has been added.

Claim 1 has been amended to correct a typographical error.

New claim 12 has been added. Claim 12 specifies that the auxiliary substance be made of methanol (see page 8, line 7 of the specification). Applicants believe that none of the cited references discloses the use of methanol as an auxiliary or additional substance in a reaction chamber.

Applicants also request the Examiner to reconsider the previous arguments with regard to the patentability of claims 1-9.

In view of the foregoing as well as the previous arguments, reconsideration and allowance of claims 1-9 and 12 are solicited.

In the event the Examiner should still find any of the claims to be unpatentable, counsel would appreciate a telephone call so that, if possible, patentable language can be worked out.
